

Gap in Employment Verification Screening & Recruitment

Remove operational effort & bias with Konfir's Gap Verification; the UK's first & only instant, automated, Gap In Employment Insight service. By leveraging data from Open Banking, access insights that verify a candidate's personal circumstances through periods of unemployment, all without having to review personal data such as banking transactions.

Main Benefits for Screening Teams

Insight led, backed by evidence

Konfir automatically identifies Gap Insights through periods of unemployment

Remove interpretation bias

You don't need to know what particular transactions are, or what they mean for a person's circumstances

Increase operational efficiency

Automate Gap Verifications with our API and removing document collection

12

Unique insights, with more planned
